7. Evaluating Progress Toward Measurable Goals MCM 6

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The Village has continued to outsource fleet maintenance and catch basin maintenance and continued its vehicle washing maintenance practices by capturing and providing for proper disposal of run off and sediment. The Village 2016/2017 Road Program included increasing number of catch basins and drainage structures serving Village Owned/Maintained Roads for increased on-site drainage and percolation.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Village replaced 450LF of dilapidated bulkhead and replaced with new steel bulkheading along the west side of Roslyn Creek. The Village in 2016, through a grant with Nassau County, and municipal/private development partnership has constructed and installed a stormceptor storm water treatment unit serving a major outfall.

C. How many times was this observation measured or evaluated in this reporting period?

			6

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

Yes No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Village will continue its vehicle washing maintenance procedures and outsourcing its fleet and catch basin maintenance. The Village 2016/2017 Road Program included increasing number of catch basins and drainage structures serving Village Owned/Maintained Roads for increased on-site drainage and percolation.
